

TELESOURCE

Where Opportunity and Insight Connect™

When Every Penny Counts

Take Advantage of Untapped Savings... *These savings directly impact your Bottom Line!*

It is not uncommon for us to save our clients anywhere from 10-50% when we audit their invoices against current pricing levels and you keep all the savings!

Why TeleSource?

Step 1: No-Cost Telecom Savings Analysis

With a quick review of your current telecom invoices, we will:

- ◆ Benchmark your services against current industry pricing.
- ◆ Estimate savings opportunities and identify areas of concern.
- ◆ Propose a cost-justified TeleSource Expense and Inventory Management Solution.

You keep 100% of the savings uncovered!

Step 2: Cost-Justified Action Plan

- ◆ Pay a fair market price for the products and services that you need.
Nothing more, nothing less.
- ◆ We establish your baseline telecom service inventory. Our program is called Telecom Expense & Inventory Management, or TEIM.
- ◆ We audit current telecom expenses, to uncover:
 - ◆ Contractual rate variances
 - ◆ Erroneous 3rd Party Charges
 - ◆ Improper install charges
 - ◆ On-going billing for disconnected services
- ◆ Plus much more!
