

CONNECT™

The Driving Force of Savings Proprietary Expense Management Software

Our proprietary software package called Connect™ is the driving force behind our Telecommunications Expense and Inventory Management (TEIM) services. It's sole purpose and existence is to capture and evaluate carrier plans, invoices and provide easy to understand reports for total control and visibility over your communications environments and costs. Don't think of us though as a software company like some other service providers. We stand by our product as an end user as well, for all of our analysis and services that we provide. You are welcome to use it as much or as little as your resources and business needs allow. We encourage you to request a DEMO and we guarantee that you will agree that it is the best in the industry.

-  Auditing of Monthly Invoices
-  Both Wireline and Wireless
-  Dispute Management
-  Billing Approvals
-  Ticket Handling and Requests
-  Procurement

The screenshot shows the Connect software interface. At the top, there's a navigation menu with options like Home, Tools, Analytics, Disputes, Reports, Inventory, Orders, and Feedback. The main dashboard is divided into several sections:

- Interactive Invoice Management Tracker:** Shows a gauge for January 2009 with metrics: Total Received: 1,234, Outstanding Invoices: 303, Ready for Approval: 2. A red button labeled "Approve Invoices" is visible. Below, for February 2009, it shows Total Received: 126, Outstanding Invoices: 1,416, and Ready for Approval: 4.
- TAC Support:** A table with columns: ID, Cost Center, Carrier, Issue. Data rows include: 2742: 3000A: AT&T: Phone / Eric Down; 2743: 640B: Sprint: Phone / Eric Down; 2746: 800C: AirSpring: Network Issue.
- Orders:** A table with columns: ID, Cost Center, Order Number, Description. Data rows include: 3: 1000A: C6483VV7: 2 POT's; 4: 1000A: C42596114: Disconnect 1 line; 19: 900B: C784655: 4 Lines for TeleMarketing Group; 18: 980B: 1238888: MPLS 1.5M for New Sales Office; 17: 860B: A9076555: 100Mg Ethernet Internet; 16: 600B: 1277889: MPLS 1.5M for New Sales Office; 15: S35C: 134637: DSL for Sales Office; 14: S10C: C476256: New Line for District Manager; New 800# for Spring.
- Dispute Manager: Top Five Open:** A bar chart showing dispute counts for different carriers: AT&T, Sprint, AirSpring, Level3, and TeleSonic. The Y-axis ranges from \$10,000 to \$60,000.
- Emergency and Service Promotions:** Two call-to-action boxes on the right: "Have an Emergency! Find All Of Your Carrier Repair Phone Numbers" and "Order Service Now Buy business phone service, long distance, or internet access with confidence."

The Connect™ software is also extremely flexible and able to be integrated with any current accounting, MDM, BYOD or HRIS system. Specific Vendor Application APIs have been refocused as part of a new module called CONNECT [IVE]. The Integrated Vendor Exchange (or IVE) solidifies TeleSouce's continued dedication in establishing new partnerships and further integration with cloud based products and technology vendors such as Coupa, ServiceNow and Okta.

Call us for more information about how Connect™ can integrate with your software.
